

Your License is inside this pouch – Please keep it for future reference.

SIMULATOR QUICK START

1. Locate your **License Letters** and follow the instructions on them to download and install your software. Each title will have it's own license letter unless you purchased a Combo License.
2. Watch in full the **Getting Started Video** that plays after installing the Smokeless Range. (This video can also be found under the Smokeless Range section of www.smokelessdownload.com)
3. Follow the **instructions in the video** to get your PC, Projector, and USB Camera setup and calibrated.
4. Ensure you have installed any needed **batteries** in your Laser Ammo training laser. They are usually shipped without the batteries installed.
5. For additional information please find **how-to videos** as well as our **Knowledge Base** on www.smokelessdownload.com
6. For further assistance please contact us at srsupport@laser-ammo.com or **516-858-1262 ext.: 105** to speak with one of our customer service specialist.
