QUICK USER GUIDE

Visit Laser-Ammo.com for additional information, tutorials, and support

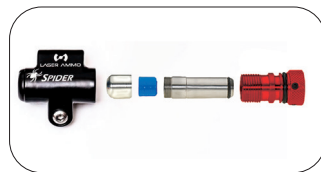

- 1 Unscrew the vibration cartridge.
- 2 Insert the battery pack according to the drawing, plus side facing the back cap.
- 3 Verify the threading is fully closed and there are no gaps.

**Laser Ammo offers several types of vibration cartridges.
All types are assembled this way.**

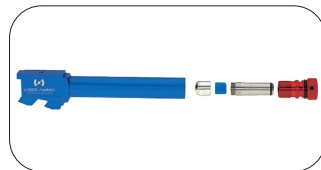

SPIDER

The Spider is to be used with Airsoft pistols with Picatinny rail and the REAL cartridge.

REAL

The REAL is to be used with specific model airsoft pistols and the REAL cartridge.

FLASH

To be used with airsoft rifles and the FLASH Cartridge.

Glock 17R

Insert assembled cartridge into the pistol chamber.
